

WHAT YOU SAID...

Your top priorities:

1. Consistency in support
2. Mental Health
3. Immigration
4. The right home
5. Reuniting with family
6. Opportunities for volunteering and work

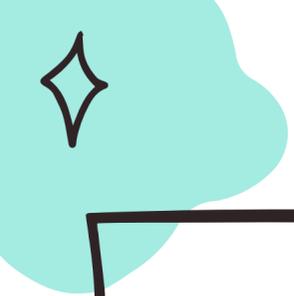

AND WHAT WE'RE DOING ABOUT IT...

We have set up a new specialist team for young people seeking asylum in Bristol to provide **better support** and **more consistency.**

We have shared your feedback on the immigration system and how it could be improved both with the Home Office, and also with local politicians

We have worked with our colleagues in the council to improve the choice and type of housing we offer to young people seeking asylum

Our new specialist team will be working on how we make it easier for young people to be reunited with family, how to get involved in volunteering and work, and how to link up with other support groups in the city

The health service have secured more funding to support the mental health of young people seeking asylum
